Continuation of Substance of Interview including description of the general nature of what was discussed: On 03/14/2011, the Examiner called Mr. Bruce Kramer and stated that he will need to update the search in order to determine if there is any other prior art available. If no prior art is found, then following amendment would have to be made in order to place the application in condition for allowance: in claim 5 at line 8 delete "a" between "to produce" and "pressure sensitive adhesive" and insert "the". Additionally, in abstract at line 4 replace "protect" with "protective" and at line 15 delete "The pressure sensitive adhesive sheet for protecting a surface of the present invention can give...for protecting a surface." Mr. Kramer authorized the Examiner to make the aforementioned amendment. On 03/15/2011, the Examiner left a voicemail for Mr. Kramer stating that upon further search update, new prior art is found and the Examiner will reopen prosecution.
